Subject: I-10 closure UPDATE and rumor control

UPDATE: Everyone, there has been some confusion about the closure to through traffic on I-10 at FM565. Here's the official scoop. The waters have receded on I-10 near Jenkins Rd. headed to Winnie. However, there is debris on the roadway and TXDOT is clearing that debris. The reason for the diversion at FM565 is so 18-wheelers and other traffic will not back up and cause hazards while the debris is being cleared. Hopefully very soon I-10 will be clear and open!

Thanks,

Ryan Holzaepfel
